PERSONAL PROJECTS

Book Store Application (React-Js ,Node-Js , Express-Js , MongoDB)
- In this Website we can register Books and application can show list of Books .
- I created the website using curd operations using MongoDB & node JS.

Web Application for Primary Health Care In Remote Areas
- In this application user can store their details like Aadhar no, medical details like medical reports x-ray copy etc., through our application which in-turn sends it to the Database along with Aadhar number.
- Data is stored in the medical application. The document can be converted into text file by OCR method and the details sent to the Tele Health Services .
- In this responsive Web Application. I used Html , CSS , JavaScript , React-Js ,Node-Js , Express-Js , MongoDB .
